

NORMACLAMP® – Hose Clamps

NORMACLAMP® TORRO® – Worm Drive Hose Clips to DIN 3017

NORMACLAMP® TORRO® hose clips are specially suitable for applications under high mechanical loads. Since we are contin-

uously working to improve its features this clip is still setting standards for modern hose clip design.

The distinguishing feature of the NORMACLAMP® TORRO® is the asymmetrical construction which tells you at first sight whether it is a genuine TORRO® or not.

Short description of technical features

- 1** Improved asymmetric housing = even distribution of forces and safe assembly
- 2** Screw support = Ease of assembly due to the safe guidance of the emerging band end
- 3** Material and clamping range stamped on the band = prevention of errors
- 4** Asymmetric extension = prevents the housing from tilting over when the clamp is tightened
- 5** Short housing saddle = even contact pressure = improved efficiency
- 6** Smooth or stamped inside of band = optimal hose protection
